i. Description of the aid measure

1. State

Norway

The following programme provides the legal cover for award of support in line with the General Block Exemption Regulation. The programme does not provide any additional funding or budget.

2. Aid granting Authority

Enova SF¹ is the authorized body to implement the Programme.

3. Objective of the aid programme and eligible activities

The Tunge nullutslippskjøretøy programme (hereby the Programme) is a framework for distributing several individual grants of state aid and aims at speeding up the adoption rate of heavy duty zero emission vehicles. Increased demand of zero emission vehicles can help build up the supply side, and, hence, be a basis for faster adaptation. The goal is that heavy duty zero emission vehicles will be the preferred choice in the future without the need for subsidies.

Eligible for aid under the Programme will be zero emission heavy duty trucks and buses with a gross weight higher than 4250 kg. Battery electric and hydrogen vehicles are supported, while hybrid vehicles and vehicles fuelled by (bio) methane will not be supported.

4. Scope of the programme

The Programme is open to large undertakings and SMEs that are registered in the Norwegian Register of Business Enterprises². The projects receiving aid under the Programme must be realized in Norway or within the Norwegian economic zone.

5. Legal Basis

The national legal basis for Enova SF as aid grantor is:

- Parliamentary Decision of 5 April 2001³ on the basis of a proposition by the Ministry of Petroleum and Energy of 21 December 2000⁴ The Parliamentary Decision amends the Energy Act of 29 June 1990 No 50 (Energiloven)
- the Agreement⁵ (Avtalen) between Enova and the Ministry of Climate and Environment⁶, on the management of the funds derived from Enova's budget.

Aid granted under this Programme will comply with Commission Regulation (EU) No 651/2014⁷, declaring certain categories of aid compatible with the internal market in application of Articles 107 and 108 of the Treaty (General Block Exemption Regulation or GBER), and the following articles: GBER 36b.

⁷ <https://eur-lex.europa.eu/legal-content/EN/TXT/?uri=CELEX%3A02014R0651-20230701>

The following programme provides the legal cover for award of support in line with the General Block Exemption Regulation. The programme does not provide any additional funding or budget.

The national legal basis for aid granted under this Programme⁸ is the programme specific regulations found in the programme criteria for Tunge nullutslippskjøretøy (Programkriterier for konkurranse om støtte til Tunge nullutslippskjøretøy⁹) and the present document¹⁰ describing the Programme's compliance under Commission Regulation (EU) No 651/2014.

In order to ensure compliance with the Commission Regulation (EU) No 651/2014 (GBER), aid under the Programme must fulfil the relevant requirements set in GBER in chapters I, II and III.

ii. Compliance with the general rules in GBER (art.1-12)

6. Aid Category and Definitions

Aid under the Programme falls under the following categories of aid in line with article 1 of GBER:

- Aid for environmental protection (art. 1(c) GBER)

For the purpose of the Programme the definitions laid down in Chapter 1 Article 2 of the General Block Exemption Regulation (GBER) are applied by Enova SF.

Aid under the Programme will be compliant with the scope of application of the GBER as described in the paragraphs of article 1 GBER.

Aid will not be granted to undertakings that are in difficulty or subject to a pending recovery order in line with article 1 §4(a) - (c) and article 2 §18 of GBER.

7. Notification thresholds, duration of the Programme and total budget for aid under the Programme

In line with article 4 GBER, aid under the Programme shall not exceed the following thresholds (also in cases when it is cumulated with other aid, ref. article 8 GBER):

In the case of investment aid for environmental protection, unless otherwise specified: EUR 30 million per undertaking per investment project;

The thresholds set out or referred to above shall not be circumvented by artificially splitting up the aid schemes or aid projects.

The Programme will run from February 28th 2024 until December 31st 2029.

The annual budget for the Programme is estimated to maximum 1 650 MNOK.

Should the budget for the Programme increase Enova will inform the EFTA Surveillance Authority.

⁸ As a rule, Enova's programmes are authorized by Enova's board, before being published on Enova's website.

¹⁰ <https://www.enova.no/om-enova/drift/rettslig-grunnlag-for-enovas-stotteordninger/>

The following programme provides the legal cover for award of support in line with the General Block Exemption Regulation. The programme does not provide any additional funding or budget.

8. Transparency of aid

All aid awarded under the Programme will be transparent and in line with criteria set out in Article 5 of the GBER.

Aid under the Programme may be awarded by way of grants.

9. Incentive effect of the aid

The Programme concerns aid that has an incentive effect, in line with the criteria set out in article 6 of the GBER.

Aid recipients must demonstrate that the aid is required for projects to proceed by submitting a written application before work on the project or activity has started. The application will as a minimum contain the following information (Art 6 GBER):

- (a) Name and size of the undertaking receiving the aid;
- (b) Description of the project, including its start and end dates;
- (c) Location of the project;
- (d) List of project costs;
- (e) Type of aid (for example grant) and amount of public funding needed for the project

10. Aid Intensity and eligible costs

In line with article 7 GBER, for the purposes of calculating aid intensity and eligible costs, all figures used shall be taken before any deduction of tax or other charge. Value added tax charged on eligible costs or expenses that is refundable under the applicable national tax law shall, however, not be taken into account for calculating aid intensity and eligible costs. The eligible costs shall be supported by documentary evidence which shall be clear, specific and contemporary. Aid payable in the future, including aid payable in several instalments, shall be discounted to its value at the moment it is granted. The eligible costs shall be discounted to their value at the moment the aid is granted. The interest rate to be used for discounting purposes shall be the discount rate applicable at the moment the aid is granted.

11. Cumulation

According to article 8 of the GBER, in determining whether the notification thresholds and the maximum aid intensities are respected, the total amount of State aid for the activity or project shall be taken into account. The total amount of State aid may be comprised of local, regional, national or other funds managed and controlled by Norway as a contracting party to the EEA Agreement.

EU funding that is understood as centrally managed by the institutions, agencies, joint undertakings or other bodies of the EU and outside the direct and indirect control of Norway will not be regarded as state aid and will thus not be taken into account when determining whether notification thresholds and maximum aid intensities or maximum aid amounts are respected.

The following programme provides the legal cover for award of support in line with the General Block Exemption Regulation. The programme does not provide any additional funding or budget.

The total amount of public funding, which includes State aid and EU funding together and is granted in relation to the same eligible costs should not exceed the most favourable funding rate¹¹ laid down in the applicable rules of EU/EEA Law.

Aid under the Programme that is granted based on identifiable eligible costs may be cumulated with

- any other State aid, as long as those measures concern different identifiable eligible costs;

Aid provided under this Programme will not be cumulated with:

- any other State aid, in relation to the same eligible costs (programme specific requirement)
- any de minimis aid in respect of the same eligible costs, if such cumulation would breach the applicable aid intensities.

In all cases, cumulation of aid under the Programme will respect the rules set out in article 8 of GBER.

12. Publication and Information

In accordance with article 9 GBER, Enova will ensure the publication on Norway's national State aid register of:

- The summary information about each aid measure exempted under GBER in the standardised format laid down in Annex II of the GBER (ref. GBER information sheet), or a link providing access to it
- The full text of each aid measure, including its amendments (ref. the Programme), or a link providing access to it
- The information referred to in Annex III of the GBER on each individual aid award exceeding EUR 100 000

In particular, the information on each individual aid award shall be organised and accessible in a standardised manner, as described Annex III of GBER, and shall allow for effective search and download functions.

All the above information shall be published within 6 months from the date the aid was granted and shall be available for at least 10 years from the date on which the aid was granted.

13. Reporting and Monitoring

Enova will follow the requirements on reporting and monitoring as they are described in articles 11 and 12 of the GBER.

Detailed records with the necessary information and supporting documentation will be maintained for 10 years from the date of the last award of aid under the Programme.

¹¹ The term "funding rate" is broader than "aid intensity". It refers to the ratio of the total amount of public funding (State aid and EU funding together) to the eligible costs for a specific project.

The following programme provides the legal cover for award of support in line with the General Block Exemption Regulation. The programme does not provide any additional funding or budget.

Enova will provide the EFTA Surveillance Authority with all the information and supporting documentation it considers necessary to monitor the application of the GBER within 20 working days of such request from the Authority.

iii. Compliance with Chapter 3 GBER

The costs of the project must be transparent and directly and exclusively related to the project. The eligible costs must also be specified at the time of application.

There is no automatic entitlement to support from the Programme. All support is subject to rigorous due diligence appraisal and internal approval by Enova and all projects shall be assessed against the conditions of the Programme and the criteria set out by Enova.

14. Aid for environmental protection

Aid under the Programme aimed at promoting environmental protection will be granted in line with the conditions set out in article 36b GBER.

Aid under article 36b GBER

Scope

Investment aid for the acquisition of clean vehicles or zero-emission vehicles for road, railway, inland waterway and maritime transport and for the retrofitting of vehicles other than aircraft to qualify as clean vehicles or as zero-emission vehicles will be granted in line with article 36b GBER.

Aid shall be granted for the purchase or the leasing for a duration of at least 12 months of clean vehicles powered at least partially by electricity or by hydrogen or zero-emission vehicles and for the retrofitting of vehicles allowing them to qualify as clean vehicles or zero-emission vehicles.

Eligible costs and Aid Intensity

The eligible costs shall be the following:

(a) for investments consisting in the purchase of clean vehicles or zero-emission vehicles, the extra costs of purchasing the clean vehicle or the zero-emission vehicle. Those shall be calculated as the difference between the investment costs of purchasing the clean vehicle or the zero-emission vehicle and the investment costs of purchasing a vehicle of the same category that complies with applicable Union standards already in force and would have been acquired without the aid;

(b) for investments consisting in the leasing of clean vehicles or zero-emission vehicles, the extra costs of leasing the clean vehicle or the zero-emission vehicle. Those shall be calculated as the difference between the net present value of leasing the clean vehicle or the zero-emission vehicle and the net present value of leasing a vehicle of the same category that complies with applicable Union standards already in force and would have been leased without the aid. For the purposes of determining the eligible costs, the operating costs linked to the operation of the vehicle, including energy costs, insurance costs and maintenance costs, shall not be taken into account, irrespective of whether they are included in the leasing contract;

(c) for investments consisting in the retrofitting of vehicles allowing them to qualify as clean vehicles or zero-emission vehicles, the costs of the investment in the retrofitting.

The following programme provides the legal cover for award of support in line with the General Block Exemption Regulation. The programme does not provide any additional funding or budget.

Aid shall be granted in a competitive bidding process, which fulfils all of the following conditions in addition to those laid down in Article 2, point (38) GBER:

- (a) the aid award shall be based on objective, clear, transparent and non-discriminatory eligibility and selection criteria, defined ex ante and published at least 6 weeks in advance of the deadline for submitting applications, to enable effective competition;
- (b) during the implementation of a scheme, in case of a bidding process where all bidders receive aid, the design of said process shall be corrected to restore effective competition in the subsequent bidding processes, for example, by reducing the budget or volume;
- (c) ex post adjustments to the bidding process outcome (such as subsequent negotiations on bid results) shall be excluded;
- (d) at least 70 % of the total selection criteria used for ranking bids and, ultimately, for allocating the aid in the competitive bidding process shall be defined in terms of aid in relation to the project's contribution to the environmental objectives of the measure for example aid requested per clean or zero-emission vehicle.

Supported activity	Aid Intensity for Large Company	Aid Intensity for Medium Company	Aid Intensity for Small Company
Aid for the purchase or the leasing of zero-emission vehicles or the retrofitting of vehicles allowing them to qualify as zero-emission vehicles	60% if competitive bidding	60% if competitive bidding	60% if competitive bidding
